

CHOLESTEROL SCREEN!!!

***Monday March 8th
&
Monday March 15th***

Are **You** at **Risk**? Let us help you determine your risk for heart disease by performing a simple, and effective Lipid Profile. A Lipid Profile is a detailed measure of the fats in your blood. It consists of measuring your total cholesterol, HDL cholesterol, and triglycerides and calculating your LDL cholesterol.

We use the Cholestech LDX® machine to perform the profile.

A 9-12 hour fast is required.

The screenings are performed by a Registered Nurse and Certified Diabetes Educator.

****Sign-up Required**
See the front desk staff!
Test takes approximately 15 minutes**
